Department of Computer Science and Engineering

Program: Bachelor of Science (B.Sc.) in CSE

Time: 25 min Full Marks: 40

Answer all of the following questions.

1	Given an array of size n, find the smallest negative element of the array.	10
2	Given an array of size n, find the product of all the non-negative elements of the array.	10
3	Find all the numbers that are less than or equal to n and multiples of 5 and 11.	10
4	Given an array of size n, find the indices of all the numbers that have the maximum absolute value in the array.	10

Note: In each problem, take input from the user. Define appropriate data types when necessary and print appropriate messages in the output.
